Michael Henderson – Report (again) on the Grant from ANC 5C for World Drumming Class

Passed around the report to the ANC which was approved unanimously, with grant report completed and approved.

Cassie Phillips – the Garden Report – 4 beds and half crescent moon. Plus two beds along the fence. DPR also has a garden program and they will be adding 2 beds this spring. She handed out sign up forms. Last year we had a core group to water. Cassie got a grant to install the spigot. Last year we grew more food than was actually eaten. We can pick the vegetable and deliver them to seniors.

We need to decide on a planting day. There will be folks going door knocking this weekend to wrap up the flyer distribution. Michael will bring kids a week from Friday to clean up the rec. Then we plant on a day after that. Cassie meets.

Heather – in addition to her DDOT hat she knows a lot about planting. You have to plant after the last frost. Can maybe plant seeds in your homes and then place them outside.

Heather can show you how to plant seeds in your home.

Cassie brought seed starter kits to demonstrate. She had a great handout – “NFI’s Tips for Seed Starting”.
